

## Arch fender

### Arch rubber fender Description:

Arch fender is a upgraded version of V type rubber fender with improved performance on energy absorption and reaction force. Arch fender can be installed horizontally or vertically through bolts. UHMW pad can be fitted to reduce hull pressure and friction.

### Arch rubber fender specification&dimension:

Serial No.	H(mm)	L(mm)	L1(mm)	B(mm)	b2(mm)
WF-A200	200	1000-3500	1100-3600	145	400
WF-A250	630	1000-3500	1125-3125	164	500
WF-A300	800	1000-3500	1150-3650	225	600
WF-A400	1000	1000-3500	1200-3700	300	800
WF-A500	1150	1000-3500	1250-3750	375	1000
WF-A600	1250	1000-3500	1300-3800	450	1200
WF-A800	1450	1000-3000	1400-3400	600	1600
